Keep the question into database

Users

- Select one of AIT' schools(SET, SOM, SERD), next choose which department of the school and then select one of its courses with specific semester.
- After the system finishes checking that the exam's question has already uploaded or not. If uploaded, users cannot upload. But if not available, users can upload the related question, then have to wait for the system's administrator approval.
- After a administrator confirmed, the uploaded file will be stored both in the website's database and post to the related Facebook group's wall.

Administrators

- the system's administrators can also upload AIT's exam questions. First, select one of AIT' schools(SET, SOM, SERD), next choose which department of the school and then select one of its courses with specific semester.
- After the system finishes checking that the exam's question has already uploaded or not. If uploaded, users cannot upload. But if not available, users can upload the related question.
- Then, the uploaded file will be stored both in the website's database and post to the related Facebook group's wall.
